United States Newspapers

Circulation averages for six months ended September 30, 1989

Daily Newspapers

Preliminary figures subject to audits as filed with the Audit Bureau of Circulations.

INFORMATION FOR THE USERS OF THIS REPORT

ABC Daily Newspaper FAS-FAX reports are published semiannually in April and October and include selected data from regular Publisher's Statements as filed with ABC by publisher members. U.S. and Canadian newspaper data are published in separate volumes.

Circulation figures for most newspapers in this FAS-FAX report are six-month averages. In some cases, the annual audit reporting periods do not coincide with the generally used March 31 and September 30 closing dates and, in these cases, the figures are three-month averages (see note on symbols). Publisher's Statement Not Filed By Press Time indicates that the publisher has not filed their statement prior to the closing date of this issue of FAS-FAX.

As in the case of all data filed with ABC, the data are subject to confirmation by regularly scheduled audits. If there is an adjustment of five percent or more between the publisher's figures and the auditor's findings, then the previous year comparison figures shown in FAS-FAX are adjusted to the auditor's findings. When a newspaper in a competitive market is adjusted under this policy, all other newspapers in the market are adjusted to the actual audit (see note on symbols). Additional detailed information for each listed newspaper is contained in its Publisher's Statement and Audit Report.

City and Retail Trading Zones are market areas defined by the Audit Bureau. Newspaper Designated Market is that geographical area which is considered to be the market served by the newspaper. City Of Publication indicates circulation is reported by corporate city rather than zones or other optional methods. Detailed descriptions of census units comprising each newspaper's market definitions are contained in the regular Publisher's Statements and Audit Reports.

All ABC reports for newspaper members in the U.S. include county population and Occupied Households (OH's) estimates as of December 31 each year obtained from Sales & Marketing Management's (S&MM's) "Survey of Buying Power." Estimates for ABC-defined newspaper markets and areas below the county level are projections based upon "Survey of Buying Power" estimates. Occupied Households figures used in this report are December 31, 1987 Sales And Marketing Management estimates reported for the first time in this FAS-FAX report. The same figures will also be reported in March 31, 1989 Publisher's Statements and Audit Reports. Questions should be directed to Manager, Market Information.

Ratio Circulation/Occupied Households is a mathematical relationship of average paid circulation to occupied households within the designated area.

SYMBOLS

#	Identifies newspaper reporting circulation averages by Newspaper Designated Market. OH's and Ratio Circ/OH's data are applicable to that market designation.
@	Identifies newspaper reporting circulation averages by City Of Publication. OH's and Ratio Circ/OH's data are applicable to that market designation.
*	Identifies three-month circulation averages (see text above).
+	Identifies adjusted comparison figures (see text above).
☆	Denotes change in publishing plan (i.e. Morning to Evening). As such, circulation for each period is reported on separate lines.
C	Participant, ABC Coupon Distribution Verification Service.
Z	Provides ABC Audited ZIP Code Analysis.

FAS-FAX

United States Newspapers

Circulation averages for six months ended March 31, 1990

Daily Newspapers

Preliminary figures subject to audits as filed with the Audit Bureau of Circulations.

A3385-3.1U 5/90

INFORMATION FOR THE USERS OF THIS REPORT

ABC Daily Newspaper FAS-FAX reports are published semiannually in April and October and include selected data from regular Publisher's Statements as filed with ABC by publisher members. U.S. and Canadian newspaper data are published in separate volumes.

Circulation figures for most newspapers in this FAS-FAX report are six-month averages. In some cases, the annual audit reporting periods do not coincide with the generally used March 31 and September 30 closing dates and, in these cases, the figures are three-month averages (see note on symbols). Publisher's Statement Not Filed By Press Time indicates that the publisher has not filed their statement prior to the closing date of this issue of FAS-FAX.

As in the case of all data filed with ABC, the data are subject to confirmation by regularly scheduled audits. If there is an adjustment of five percent or more between the publisher's figures and the auditor's findings, and/or at the publication's request, the previous year comparison figures shown in FAS-FAX are adjusted to the auditor's findings. When a newspaper in a competitive market is adjusted under this policy, all other newspapers in the market are adjusted to the actual audit (see note on symbols). Additional detailed information for each listed newspaper is contained in its Publisher's Statement and Audit Report.

City and Retail Trading Zones are market areas defined by the Audit Bureau. Newspaper Designated Market is that geographical area which is considered to be the market served by the newspaper. City Of Publication indicates circulation is reported by corporate city rather than zones or other optional methods. Detailed descriptions of census units comprising each newspaper's market definitions are contained in the regular Publisher's Statements and Audit Reports.

All ABC reports for newspaper members in the U.S. include county population and Occupied Households (OH's) estimates as of December 31 each year obtained from Sales & Marketing Management's (S&MM's) "Survey of Buying Power." Estimates for ABC-defined newspaper markets and areas below the county level are projections based upon "Survey of Buying Power" estimates. Occupied Households figures used in this report are December 31, 1988 Sales And Marketing Management estimates reported for the first time in this FAS-FAX report. The same figures will also be reported in September 30, 1989 Publisher's Statements and Audit Reports. Questions should be directed to Manager, Market Information.

Ratio Circulation/Occupied Households is a mathematical relationship of average paid circulation to occupied households within the designated area.

SYMBOLS

#	Identifies newspaper reporting circulation averages by Newspaper Designated Market. OH's and Ratio Circ/OH's data are applicable to that market designation.
@	Identifies newspaper reporting circulation averages by City Of Publication. OH's and Ratio Circ/OH's data are applicable to that market designation.
*	Identifies three-month circulation averages (see text above).
+	Identifies adjusted comparison figures (see text above).
☆	Denotes change in publishing plan (i.e. Morning to Evening). As such, circulation for each period is reported on separate lines.
C	Participant, ABC Coupon Distribution Verification Service.
Z	Provides ABC Audited ZIP Code Analysis.
